

# URBAN LIVING

URBAN LIVING: MADE IN THE U.S.A.

A collection that tells a world in constant evolution.  
With an **urban aesthetic** linked to the world of  
design and an **extremely transitional mood**.  
Raw textures and gentle colors combine to create  
harmonious escapes within a growing city.

**Embrace that world, comfortably.**

|  | DESCRIPTION  |
|--|--|
| <br><b>Declare.</b> | Declare labels disclose all intentionally added ingredients and residuals present in the final product. Being Red List Free means the worst materials, chemicals, and elements for human and environmental health are not present within our products.   |
|                     | The Health Product Declaration Collaborative transparency declaration for all of Florim USA's naturally occurring materials.   |
|                      | Certification of plant and product specific Environmental Product Declaration (EPD) which tracks environmental impacts from the production of porcelain tile.  |
|                     | Tile Council of North America and the American National Standards Institute's standard for sustainability and environmental impact.  |
|                     | Underwriter's Laboratories certification of low emitting materials. Florim USA is Green Guard Gold certified.  |
|                     | Defines post-consumer content of as much as 3% recycled material which reduces landfill impact. Certified by Bureau Veritas.   |
|                    | Defines pre-consumer content of as much as 45% recycled material which reduces our carbon footprint. Certified by Bureau Veritas.  |
|                    | Florim USA's sustainability and social practices support the mission of The International Living Future Institute which strives to create a socially just, culturally rich, and ecologically restorative community.  |
|                   | USGBC is committed to suit a more sustainable life. Florim USA supports this mission by manufacturing products which aid architects in achieving USGBC certification.  |
|                   | Florim USA sources >95% raw material within a 500 mile radius, which results in a smaller carbon footprint.  |
|                    | Florim USA actively participates in the Tile Council of North America which allows us to be on the forefront of advances in the tile industry and its standards.   |
|                   | The Tennessee Recycling Coalition is dedicated to promoting recycling and sustainable material management practices, and awarded Florim USA the Tennessee Recycler of the Year award for 2020.   |
|                    | ISO 9001 & ISO 14001 are globally recognized standards. ISO 9001 certifies that Florim USA products and practices continually meet and exceed customer and regulatory requirements. ISO 14001 certifies that Florim USA complies with environmental regulations and that it's manufacturing practices are environmentally conscious. |
|                   | Florim USA updated its corporate charter in 2022 to become a Benefit Corporation. Our company is committed to maintaining this designation through initiatives focused on sustainability, social responsibility, ethical business practices and transparent, annual reporting on our social and environmental performance.           |

# Progress that invests in the entire society

As an active member of the U.S Green Building Council, MILE<sup>®</sup>stone spreads awareness to the community and encourages the use of building solutions through environmentally friendly practices. Our products positively contribute to the requirements for obtaining the LEED (Leadership in Energy and Environmental Design) and WELL (IWBI) certifications.

## A commitment to environmental sustainability and responsibility

We are committed to conscious development that minimizes the negative impact of manufacturing production on the environment. Our general approach to sustainability intersects with our business strategy to embrace three areas of responsibility: economic, social, and environmental. Some ways we prove this are:

- Products containing as much as 45% recycled content.
- Post-consumer recycled content levels as much as 3%.
- Zero industrial wastewater discharge.
- A 99% internal process recycling rate.
- Local sourcing of >95% raw materials (within 500-mile radius of factory) resulting in low transportation related carbon emissions.

MILE<sup>®</sup>stone is taking these and other steps, as well as actively investing to reduce carbon emissions to ensure that we reach full carbon neutrality.
